

**COUNTY OF CARTERET
BOARD OF COMMISSIONERS
REGULAR SESSION
COMMISSIONERS' BOARDROOM
OCTOBER 3, 2005**

The Honorable Carteret County Board of Commissioners sat in regular session on October 3, 2005. Present were: Chair Lynda Clay, Vice-Chair Tom Steepy, Commissioners Doug Harris, Pat McElraft, Ray Muns and Jonathan Robinson.

Commissioner Holt Faircloth was absent.

I. MEETING CALLED TO ORDER

Chair Clay called the meeting to order and Commissioner Robinson gave the invocation. All present recited the Pledge of Allegiance.

II. ADOPTION OF AGENDA

Chair Clay said Bill Zaist, the County Engineer, asked that the Board remove consent agenda item #8. from the agenda. She said Mr. Zaist indicated that he had some additional information forthcoming and preferred that the Board remove this item from the agenda.

Motion-Commissioner Steepy moved to adopt the amended agenda. Commissioner McElraft seconded. **Motion carried unanimously.**

The agenda was as follows:

**CARTERET COUNTY
BOARD OF COMMISSIONERS

4. Sheriff's Department Budget Amendment \$10,000

Fiscal Year : 2005-2006
Date Submitted: 12-Sep-05
Department of Origin: SHERIFF

Budget Change Explanation:
Monies needed for upcoming drug enforcement efforts.

<u>Account Name</u>	<u>Account Number</u>	<u>Increase</u>	<u>Decrease</u>
Reserve Drug Fund	110.10.3431.30300	10000.00	
Drug Fund	110.10.4310.23800	10000.00	

5. Approval of Sheriff's Department Grant Application for NC Governor's Highway Safety Program Funds

The Board approved a grant application in the amount of \$4,350 for the Sheriff's Department to purchase four Dual Antennae Radar Units. The local match for the grant, if awarded, will be \$1,450 and funds are available in the Sheriff's Department budget for this local match.

6. Approval of Contract Renewal with U.S. Security

The Board approved a one year extension to the current contract with U.S. Security for security officers to patrol the Courthouse Square facilities after hours. The contract extension reflects a 4.5% increase. The security service agreement was as follows:

**SECURITY AND/OR PATROL SERVICE AGREEMENT**
Date: SEPTEMBER 28, 2005

7. Approval of Resolution Authorizing the Sale of County Property Through the Upset Bid Method

Per a memorandum from Carl Tilghman, Carteret County Tax Administrator, the Tax Office advertised four parcels of real property for sale. Only one property received bids and that property was located in the community of Stacy, as outlined in the attached Resolution. Five bids were received. Those bids were:

Craig Baxter	\$13,200
Dallas Goodwin	\$11,000
Craig Branson	\$10,000
Bryan Rhodes	\$ 1,500
Holly Metz	\$ 331

The Board approved the following Resolution:

**RESOLUTION AUTHORIZING THE SALE OF A HOUSE AND LOT
LOCATED ON HIGHWAY 70, STACY COMMUNITY
THROUGH THE UPSET BID METHOD**

WHEREAS, Carteret County is the owner of a house and lot on Highway 70 in the Stacy Community, PIN No. 7341.00.40.9688000; and

WHEREAS, the County intends to sell this lot through the upset bid method; and

WHEREAS, the 2005 tax value of this lot is \$7,380, but may have a fair market value of \$12,500 depending on its suitability for septic tank installation on site; and

WHEREAS, the County seeks to recover additional legal costs associated with the sale of this property, estimated at \$100.00; and

WHEREAS, Mr. Craig Baxter has submitted a written offer to purchase the property for the sum of \$13,200.00; and

WHEREAS, Carteret County will advertise for upset bids on this parcel for a period of 10 days as required by N.C.G.S. 160A-269, upon receipt of a 5% deposit from Mr. Baxter.

NOW, THEREFORE, BE IT RESOLVED, that the Carteret County Board of Commissioners conditionally accepts the purchase offer of Mr. Craig Baxter upon receipt of his deposit of 5% of the offer and his agreement to pay the associated legal costs to the transaction, and

BE IT FURTHER RESOLVED, that the Carteret County Board of Commissioners directs the County Manager to advertise the potential sale of this lot to Mr. Craig Baxter at the price of \$13,200.00 and invite upset bids for period of 10 days as required by law, and

BE IT FURTHER RESOLVED, that the Carteret County Board of Commissioners authorizes the County Manager to finalize the sale of the property to Craig Baxter at the price of \$13,200 if no upset bids are received at the end of the 10 day period, and

BE IT FURTHER RESOLVED, that the County Manager is authorized, if necessary, to repeat the upset bid process until the legal requirements for sale through the upset bid process are complete. The County Manager is then authorized to finalize the sale of the property to the highest bidder.

ADOPTED, this the 3rd day of October 2005.

Lynda Clay, Chair
Carteret County
Board of Commissioners

Jeanette Deese, Deputy Clerk

IV. PROCLAMATION DECLARING OCTOBER 2-8, 2005 AS "4-H WEEK" IN CARTERET COUNTY

Chris Davis, a 4-H Volunteer Leader, accepted the following Proclamation declaring October 2-8, 2005 as National 4-H Week in Carteret County. Members of several 4-H Clubs were recognized. Patricia Cahoon, the County's 4-H Agent for Youth Development, was also present and took photographs of the club members.

PROCLAMATION DECLARING NATIONAL 4-H WEEK IN CARTERET COUNTY OCTOBER 2-8, 2005

WHEREAS, 4-H has been serving the young people of North Carolina with educational and leadership opportunities since 1914; and

WHEREAS, 4-H work is an educational youth development program of the North Carolina Cooperative Extension Service, and North Carolina State University, and is supervised on the County level by the 4-H Staff along with the help of local 4-H volunteers who are outstanding men and women in their communities; and

WHEREAS, North Carolina 4-H reaches 250,000 youth and 25,000 volunteers annually; and

WHEREAS, 4-H's pledge their Heads, Hearts, Hands, and Health to the improvements of their clubs, communities, countries, and world; and

WHEREAS, 4-H members working with educational learn-by-doing projects put into practice new skills and science as they strive "To Make The Best Better," the motto of 4-H; and

WHEREAS, 4-H provides a unique opportunity for young people to develop life skills through hands on learning experiences, including educational workshops, project work, presentation experiences, camps, conferences, before-and-after school programs, and other events at local, county, district, state, national and international levels; and

WHEREAS, the citizenship and leadership training which 4-H members receive in this program is a valuable asset to our democratic way of life; and

NOW, THEREFORE, WE, the Carteret County Board of Commissioners do hereby proclaim October 2-8, 2005 as NATIONAL 4-H WEEK in Carteret County, and urge all of our citizens to encourage and support the work of the 4-H Youth Development Program.

ADOPTED, this the 3rd day of October 2005.

Lynda Clay, Chair

Jeanette Deese, Deputy Clerk

Motion-Commissioner Muns moved to approve the Proclamation declaring the week of October 2-8, 2005 as 4-H Week in Carteret County. Commissioner McElraft seconded. **Motion carried unanimously.**

V. PROCLAMATION DECLARING OCTOBER 15, 2005 AS "POETRY DAY" IN CARTERET COUNTY

Carol Hayman, the Carteret County Poet Laureate, acknowledged the importance of poetry. She updated the Board on her activities as Poet Laureate. Ms. Hayman distributed and read a poem entitled, "*The House I live In*". She pointed out that the Courthouse building is nearly 100 years old and encouraged the Board to make it a plaqued historic building.

Chair Clay read the following Proclamation:

PROCLAMATION DECLARING OCTOBER 15, 2005 AS "POETRY DAY" IN CARTERET COUNTY

WHEREAS, POETRY DAY, October 15th, is recognized worldwide; and

WHEREAS, this day is observed and celebrated by hundreds of writer's organizations, including: the World Poetry Society, the National Federation of State Poetry Societies, the National League of American Pen Women, the North Carolina Poetry Society, the NC Writer's Network, Carteret Writers and The Poetry Council of North Carolina; and

WHEREAS, the purpose of this day is to lift up the important and inspiring contributions made by our poets, living and dead, to our quality of life in recording the age-old story of life and the human condition; and

WHEREAS, our Carteret County Citizens seek to encourage the writing, reading and study of poetry in our Carteret County schools, libraries and homes.

THEREFORE, BE IT PROCLAIMED, that the Carteret County Board of Commissioners does hereby declare October 15, 2005 as POETRY DAY in Carteret County.

ADOPTED, this the 3rd day of October 2005.

Lynda Clay, Chair

Tom Steepy, Vice-Chair

Holt Faircloth

Doug Harris

Pat McElraft

Ray Muns

Jonathan Robinson

ATTEST:

Jeanette Deese, Deputy Clerk

Motion-Commissioner McElraft moved to approve the Proclamation declaring October 15th as Poetry Day in Carteret County. Commissioner Harris seconded. **Motion carried unanimously.**

Recognition of Boy Scouts Achieving the Eagle Scout Award

Commissioner Robinson informed the Board that three area Boy Scouts had obtained the prestigious Eagle Scout Award. The young men are: Joe Browning of Cape Carteret, Julian Salter of Atlantic, and Nathaniel Betts of Morehead City. Commissioner Robinson pointed out that only 2.5% of the Boy Scouts ever advance to the rank of Eagle Scout. Ms. Deese asked that Commissioner Robinson provide her with the troop numbers and addresses for these individuals so she could send them a special letter of congratulations, as well as a Carteret County pin.

VI. PUBLIC COMMENT

Pete Gruber spoke about the severe shoaling problem in the Atlantic Harbor and the need to have this harbor dredged. Mr. Gruber said he conducted an informal tally and estimated that 90% of the boats using the harbor are commercial vessels. He stressed the importance of commercial fishing to Carteret County and referred to it as the social identity and the economic backbone of the down east areas.

VII. FINAL APPROVAL OF CANNONSGATE AT BOGUE SOUND – PHASE II

Katrina Marshall provided the following background information, which was provided to the Board by memorandum in their agenda packets:

As per the Carteret County Zoning Ordinance, Section 3206-Flexible Planned Unit Development, each section or phase of the master plan for the flexible planned unit development is required to be approved by the Planning Commission and the Board of Commissioners. The developer is requesting final approval of Cannonsgate at Bogue Sound, Phase II from the Board of Commissioners. This approval is required prior to the phase being recorded in the Register of Deeds.

The developer received Final approval for Phase I at the June 20, 2005 Board of Commissioners meeting. That approval was based on a performance guarantee (bond) for \$15.4 million dollars for the required infrastructure and amenities. The bond included the infrastructure for Phase II.

Overall, Cannonsgate at Bogue Sound consists of 525 lots (1.83 dwelling units per acre) on 287.35 acres. The revised master plan consisted of all single-family lots, a 75-slip marina, 1 pier, tennis courts, pool and clubhouse. The project received Preliminary approval on May 9, 2005. Preliminary approval allows the construction of the infrastructure and amenities. The developer then received Final approval from the Planning Commission on June 13, 2005 for Phase I based on a performance guarantee for the completion of the infrastructure and amenities. The County Attorney reviewed the proposed bond prior to it being executed.

Phase II consists of 251 lots on 116.68 acres (2.15 units/acre). Phase II is located near the entrance on Hwy 24 and extends to Bogue Sound on the western end of the project. Copies of the plan and the engineer's cost estimate for the performance guarantee are attached.

Commissioner Harris asked County Attorney Wheatly if he had reviewed the bond. Mr. Wheatly said he had and found everything to be in order.

Motion-Commissioner Harris moved to grant final approval of Phase II of Cannonsgate. Commissioner McElraft seconded.

Commissioner Muns pointed out that the entire Cannonsgate Subdivision would consist of over 500 lots, with only one road for access and egress for the development. Ms. Marshall noted that access for the development was limited due to wetland restraints. Commissioner Muns said this would result in a lot of traffic entering and exiting Hwy. 24. He recalled that the Board previously denied a rezoning for the Jones family to have a small shopping center with a grocery store because some Board members were concerned about the increased

amount of traffic going in and out of Hwy. 24. Commissioner Muns said he thought the Board was making a mistake by showing preferential treatment to some projects.

There being no further discussion, Chair Clay called for the vote on the motion.

Motion carried 5-1, with Commissioner Muns opposed.

Commissioner Muns said he was only opposed because Mr. Jones was not allowed to develop his strip mall project on Hwy. 24. He said he had nothing against the developers or the Cannonsgate project but he felt the Board was showing favoritism.

VIII. BROAD CREEK MIDDLE SCHOOL CHILLER REPLACEMENT
A. REQUEST FOR SUPPLEMENTAL FUNDING TO REPLACE CHILLERS
B. APPROVAL OF BUDGET AMENDMENT - \$133,614

Judson Walton reviewed a request by the Carteret County Board of Education for supplemental funding in the amount of \$133,614 to replace two chillers at Broad Creek Middle School. One of the chiller replacements was requested as part of their 2005-06 capital requests by the Board of Education but both were added to the bond referendum instead of being funded immediately. Mr. Walton explained that because the chillers were in such bad shape, they did not expect them to last until the bond funds were available; therefore, the Board of Education requested that the Board of Commissioners support these purchases immediately, with the understanding that the fund balance be reimbursed from the bond proceeds, if approved. Mr. Walton anticipated it would take about nine (9) weeks for the chillers to be delivered and they would like to install them while the students are out in December. He said they priced the replacement parts but the cost exceeded the price of the new chillers.

Chair Clay questioned the reimbursement funding, in the event the bond referendum fails. Mr. Langdon pointed out that the fees could be recouped, regardless of whether or not the County funded the school needs through general obligation bonds or another alternative way of financing. Commissioner Muns pointed out that he was against using the COPs funding mechanism for any of the school projects.

Commissioner McElraft asked if the School System only obtained one bid for installation. Mr. Walton said they price out a time and materials contract and they bid mechanical, general, electrical, etc. and Mech Works was the low bidder.

Commissioner McElraft questioned that E-Procurement included 1.75%. Mr. Walton said he talked to representatives from Trane earlier that day and they confirmed that \$1,851.00 would be deducted from their quote because they are not allowed to charge for that; therefore their quote would be revised.

Commissioner Steepy questioned the things excluded in the Mech Works contract. Mr. Walton said the School Maintenance personnel would be taking care of those items.

Chair Clay asked if the figure included in the InRe Study was approximately the same as the price recommended by the School System. Mr. Walton said the InRe estimate was approximately \$320,000, which was considerably more than what they were requesting.

Commissioner Harris asked if the quality of the recommended units was sufficient for the County's environment. Mr. Walton said yes, noting that the fins would be coated and they were the best the County could buy. He confirmed that louvered paneled coil guards would also be in front of the units.

Motion-Commissioner Harris moved to approve a budget amendment, not to exceed \$133,614 for the replacement of two chillers at Broad Creek Middle School, with the understanding that these funds will be repaid to fund balance if the upcoming school bond referendum passes. Commissioner McElraft seconded.

Chair Clay pointed out that the numbers would have to be adjusted slightly.

Mr. Langdon said the budget amendment in the agenda packets proposed taking the money out the County's fund balance; however, earlier that year, the Board approved a contingency fund for the purpose of having these funds available to do the septic lift replacement at the Community College. Since the College was able to find alternative funding for the lift replacement, those funds were never used. Mr. Langdon said staff prepared an optional budget amendment which reflected pulling these funds from this contingency account, should the Board wish to do so.

Commissioner Harris asked how much was in that account. Mr. Langdon estimated between \$165,000-\$170,000. Commissioner Harris said he would be more comfortable if the Board kept these items separately and did a budget amendment for whatever was required to do away with that contingency money, so there wouldn't be any confusion.

He pointed out that his motion was to take the money out of fund balance. Commissioner McElraft agreed.

Commissioner Muns said he supported the motion, as stated; however, he reiterated that he, in no way, supported anything other than recouping this money from the bond issue. He said he didn't want this tied to a possible COPs financing method. County Manager Langdon said he didn't

Commissioner Robinson asked if there was some money in the current budget for the replacement of chillers. Commissioner Harris said there was no money budgeted for these particular chillers and they were added to the bond.

Chair Clay called for the vote on the motion.

Motion carried unanimously.

Commissioner Harris asked Mr. Langdon to bring a budget amendment back to the Board at the next meeting, to transfer the contingency funds back into the general fund.

The budget amendment was as follows:

Carteret County				
Budget Amendment				
Fiscal Year 2005-2006				
Fund: School Annual Capital Projects Fund				
Date: 10/03/05				
Justification: To appropriate and transfer funds for 2 chillers at Broad Creek Middle School				
Fund		Description	Account Number	Increase Decrease
General Fund	Revenue	Fund Balance	110.00.3990.990	<u>133,614</u>
	Expenditures	Transfer to School Capital Fund	110.98.9800.90005	<u>133,614</u>
School Capital	Revenues	Transfer from General Fund	421.70.3980.900	<u>133,614</u>
	Expenditures	HVAC Improvements	421.70.8168.84100	<u>133,614</u>

IX. DISCUSSION OF HURRICANE DAMAGES TO COUNTY OWNED BUILDING LOCATED AT 402 BROAD STREET IN BEAUFORT

Bill Zaist, County Engineer, explained that the County owned building located at 402 Broad Street in Beaufort, sustained substantial damage as a result of Hurricane Ophelia. Sections of the roof were torn loose and one internal roof drain burst, causing water damage to both floors. The two story brick building was built in 1962 and most recently housed the County's Planning & Development Offices, the Assistant to the County Manager's Office, and Juvenile Restitution. Those departments have been temporarily relocated to other locations within County owned properties. Mr. Zaist estimated the damage to the building to cost \$88,000, based on an estimate by Virtexco, the contractor currently working on the Courthouse/Administration Building.

Mr. Zaist said the building is not vacant and the County had spent about \$2,000 on minor repairs to the roof to prevent more water from coming into the building. He said they had placed dehumidifiers in the building in an attempt to dry it out.

According to Mr. Zaist, the building needs a new roof and the ceilings need replacing on both floors. He said some of the drywall needs replacing and the building will need painting. Mr. Zaist said, if the County brought the second floor up to American Disabilities Act compliance, it would cost about \$125,000 to put in an elevator.

Mr. Zaist said the County had requested an appraiser to appraise this building, as well as the old church. Based on a walk-through with the appraiser, he unofficially appraised the old health department building at \$350,000-\$400,000, as is. If repaired, he estimated adding another \$100,000 to the value. Commissioner Harris asked about the square footage of the building. Mr. Zaist estimated 3,000 sq. ft. per floor, for a total of about 6,000 sq. ft.

Commissioner McElraft asked if the County had insurance on the building. Mr. Zaist said yes, noting that the initial estimate by the Insurance Adjusters was approximately \$65,000. Commissioner McElraft questioned whether competitive bids on the damages would influence the Insurance Adjuster's estimate. Mr. Zaist said he didn't know but it would certainly pose a strong argument. Commissioner McElraft asked how much the deductible was on the policy. Mr. Zaist said \$25,000, per event. Ms. Langdon added that the County wasn't ready to accept a check from the insurance company, nor was the insurance company ready to settle.

Chair Clay asked if there was any plan to bring the Planning & Inspections Department back to the 402 Broad Street building, if the Board agreed to have it repaired. Mr. Langdon said there had been no discussion about this because they were a long way from making that decision. He said the Board needed to decide if they wanted to merely repair the drain problem or renovate the building and move offices back into the facility. Mr. Langdon said if the Board decided to completely repair the building, the contract would have to be let and there would be a period of time before the contract was awarded.

Chair Clay said she would be interested in getting two different bids, one to include ADA compliance with an elevator. Mr. Zaist said that would be easy to do. She asked if the Planning and Inspections Department moved back into the building, would the second floor have to be ADA compliant. Mr. Langdon clarified that there must be an elevator only if the building has public spaces where the general public must have access to the second floor. Chair Clay asked if the public needed access to the second floor. Mr. Langdon said the second floor was previously used for office space for Jack Veit and file storage, which didn't require access by the general public.

Mr. Zaist distributed the following hand-out outlining damages to County property incurred by Hurricane Ophelia:

Hurricane Ophelia Damage to Carteret County Facilities

Description	Estimate	Category	Revised Estimate
Emergency Services		Building	
Health Department		Building	
Administration		Building Roof	
Court Annex		Building Roof	
Beaufort Elementary School		Building Roof	
Leon Mann Senior Center		Building	
402 Broad Street		Building	
Sheriff - Jail		Building	
Social Services		Building	
Station Club		Building	
Western Library		Building	
Parks & Recreation		Buildings & lights (all parks)	
Parks & Recreation		Harkers Island Pier	
Parks & Recreation		Radio Island Access	
Parks & Recreation		Salter Path Beach Access	
Economic Development Center		Building	
Public Works		Roof	
Water Plant		Salt storage tank	
Subtotal for Building Damage	\$ 400,000 to 500,000		
Environmental - Debris	\$300,000 to 400,000		
Juvenile Restitution		TV & Desk	
Health Department		Mosquito Truck	
Administration		Equipment	
Leon Mann Sen. Cntr.		Equipment	
Planning & Permits		Equipment	
Sheriff - Jail		Equipment	
Parks & Recreation		Brochures & Various	
Sheriff - Jail		Communication Towers/Equipment	
Sheriff - Jail		Electronics	
Sheriff - Jail		Vehicles	
Finance Department		Overtime pay & compensation	
Planning & Permits		Electronics	
Equipment and Misc.	\$200,000 - 300,000		

Mr. Zaist said the top half of this list addresses building damage, which was primarily roof damage. He said the insurance company would be reviewing each of these and they had already looked at about half of them. Mr. Zaist said the environmental debris was the vegetative and construction & demolition debris being accumulated at the collection sites. He estimated this to be between \$300,00-\$400,000 and hoped that FEMA would work with the County on this. Mr. Zaist confirmed that this included tipping fees that were being waived, but he noted that this was a preliminary estimate. He added that it was also inclusive of grinding fees as well. Commissioner Harris questioned if the Board could make any kind of decision on this until they knew what the insurance company was going to do. Mr. Zaist said, not necessarily, but he proposed that in order to do the building repairs, staff needed to define exactly what was wrong with each building. He proposed that the County hire an architect, which would involve the following:

- Selection process for the architect firm
- Period for evaluating the architect/engineering firm
- Evaluate the damages
- Determine estimates
- Prepare plans and specifications for bidding
- Receive bids

Mr. Zaist said this process could take a minimum of ninety (90) days, so he proposed that the Board authorize staff to interview architects and go through the selection process before making a recommendation for hiring an architect/engineering firm to proceed.

Commissioner Harris asked if this same process would have to be followed, if the County received a favorable declaration from FEMA. Mr. Zaist said yes. Mr. Langdon said this was important because there would be a period of time in which the County would have to get this information together for FEMA.

Commissioner Harris asked Mr. Zaist if he was suggesting that all the building roofs, etc. required an architect. He questioned where the County received damage in a sufficient manner that an architect would be required. Mr. Zaist said he was personally spread out pretty thin and he felt the County needed engineers to go out and look at these different areas and identify the problems. He said the insurance adjuster had spent a week in Carteret County looking at the buildings and the damages. Mr. Zaist felt this required a workforce to actually package this together in a reasonable amount of time.

Commissioner Harris pointed out that Mr. Zaist was using two terms "architect" and "engineer". Mr. Zaist said he was referring to an A&E firm. He said he wasn't talking about architectural design but an engineer would be needed in terms of specifying roofing materials and things of that nature. Commissioner Harris questioned if the County could just hire a structural engineer. Mr. Zaist said they typically specialized in the structural part of a project and worked under a team with an architect. He said the County would still manage the construction. Mr. Zaist felt this would save the County money, in the long run.

Chair Clay said she had looked at several of the buildings and some of them do not require an engineer and architect. Mr. Langdon said Mr. Zaist didn't mean to say that all the buildings needed this service. For example, the EDC building re-roofing project would not need an engineer/architect; however, the Courthouse re-roofing project that was recently completed, experienced some leaking in the vicinity of the attorney/client room and he felt a professional should look at this. Mr. Zaist said they needed to factor in that contractors are spread thin along the east coast as a result of all the hurricanes and bookings by Camp Lejeune. He didn't think the County could expect to get additional attention by contractors and we need to spell out exactly what needs to be done, in order to get a competitive bid on the damages.

Chair Clay asked if the items at the bottom of the page would be bid out separately. Mr. Zaist said this was a preliminary list and he wasn't suggesting that everything on the list should be handled by an architect or an engineer. He said, as he received more information on the damages, the County could make decisions on which items required these services.

Commissioner McElraft suggested that using an engineer might help us get more insurance money because it would give an unbiased viewpoint by using a professional. Chair Clay said, generally, an insurance adjuster just looks at awarding to the lowest priced bidder. Commissioner McElraft asked Mr. Zaist if he could wait ninety (90) days to settle this. Mr. Zaist said he wasn't necessarily waiting for the bids to come back before settling with the insurance company. Mr. Langdon said staff would discuss this with the Board before going forward. He said staff just needed a consensus of the Board.

Commissioner Muns questioned if the items on the list were all a result of Hurricane Ophelia. Mr. Zaist said the list was made up of damages that were identified after the hurricane. Commissioner Muns questioned several items on the list but Mr. Zaist said he didn't know the details of each item. Commissioner Muns said he would like to see a breakdown of the details of the list. Mr. Langdon assured that the damages on the list were all a result of water damage. He said staff was not asking for approval of a dollar amount for the items listed, but for approval of an approach for staff to take. Commissioner Muns clarified that he wasn't asking for dollar amounts, but he wanted to know specifically what equipment was lost. Mr. Zaist said these were just estimates for FEMA. He recommended that the Board direct staff to bring in some professionals to help them with the details of the damages.

Commissioner Steepy said he understood Commissioner Muns' concerns about identifying exactly what has to be done but he was sensitive of time, especially regarding roofs. Mr. Zaist assured that staff had temporarily covered the roofs.

Chair Clay suggested that the Board get a consensus of direction for the County Manager and for Mr. Zaist. She didn't think a formal vote was necessary.

Commissioner Harris pointed out that the agenda packet information asked the Board, "To direct staff to request bids for repairs to the building." He asked Mr. Zaist if this only referred to the old health building. Mr. Zaist said, at the time the agenda packet information was put together, that was the case, but now he was expanding this request because he realized over the weekend that the bigger problem is how to fix all of the damage. Commissioner Harris said he would like staff to explore long term repairs, such as replacing damaged roofs with better quality roofs, in order to avoid these problems from reoccurring.

Motion-Commissioner Harris moved to request staff to get bids on all this work. Commissioner McElraft seconded.

Chair Clay said she didn't necessarily disagree with this idea; however, it had been her experience when dealing with engineers and architects, they will expand their job to the extent that we are willing to pay. Commissioner Harris said Mr. Zaist could control that.

Commissioner Steepy asked Mr. Zaist if this was what he needed to move forward. Mr. Zaist said he would like the ability to engage an engineer and architect. He said he would come back to the Board for approval to award a contract for the services. Chair Clay said this would take a great deal more time if he waited for the Commissioners to meet every time he needed an answer. She asked the Board if they were willing to allow Mr. Langdon to approve a contract for an architect or an engineer, up to his allowable authorized amount. Commissioner Steepy asked Mr. Zaist if this approach was adequate. Mr. Zaist said yes, if the Board understood that this could be a preliminary study that would lead to another architectural fee, if there was more involved. He wasn't sure that Mr. Langdon's contract approval allowance of \$10,000 would cover the cost of the fees. Mr. Zaist said the initial survey work by an architect or engineering firm was where the money would come in.

Commissioner Harris asked Mr. Zaist to clarify exactly what he wanted, because he thought his motion was what Mr. Zaist wanted. Mr. Zaist said he misunderstood the motion and thought the motion was just to take bids for the work but he wanted to take proposals from architects/engineers.

Amended Motion-Commissioner Harris said he changed his motion to request that the County Engineer obtain proposals from A&E firms on the amount of work that needs to be addressed by those types of professionals, based on Mr. Zaist and Mr. Langdon's opinion. Commissioner McElraft seconded.

Commissioner Steepy said he and Mr. Veit walked through the building located at 402 Broad Street and he got a much better appreciation for what it was like. He commended staff for the efforts and work involved in keeping the damages to a minimum, by utilizing dehumidifiers to keep the mold and mildew from being worse than it was.

Chair Clay asked that Mr. Zaist bring back some cost for the items listed on the bottom half of the page he presented. Mr. Zaist said he would be glad to give the Board an update on the latest information on these items.

Chair Clay called for a vote on the motion by Commissioner Harris for the County Manager and County Engineer to bring a proposal back to the Board for architectural/engineering review of the repairs to buildings. Commissioner Steepy felt the original motion was more encompassing.

Restated Motion-Commissioner Harris said his motion was for Mr. Zaist to determine which items on the list needed A&E professional expertise and to bring proposals back to the Board.

Commissioner Steepy asked about the items that did not require A&E expertise. Commissioner Harris said Mr. Zaist hadn't asked the Board for that yet.

Motion carried unanimously.

*****BREAK*****

X. UPDATE ON ATLANTIC HARBOR DREDGING

Bill Zaist explained that the channel leading into Atlantic Harbor has been filled in and the sand breakwater breached in several places. According to Mr. Zaist, several commercial fishing boats are unable to enter or leave the harbor. Maintenance of the channel is an active US Corps of Engineers Project; however, the Corps was not funded for this work in recent years. The Corps surveyed the harbor on September 29th and will request federal emergency funding to dredge the channel and restore the sand breakwater.

Mr. Zaist explained that, as a back-up plan, he had discussed options with the Department of Environment and Natural Resources (DENR) Division of Coastal Management. Their suggestion is to do a two-step process requiring submission of two applications for Major CAMA permits (1) to repair the breaches in the sand breakwater, and (2) to dredge the channel from the harbor entrance to channel marker #6. Mr. Zaist estimated the overall County project to cost \$400,000. He said staff had requested \$320,000 from the State DENR Division of Water Resources, with the County being responsible for \$80,000 in matching funds.

Mr. Zaist said it was his understanding that the grant board had made their recommendations to Governor Easley and they were waiting for him to sign the document. Mr. Zaist said they would not tell him how much money they recommended but they confirmed that some money was being recommended. He hoped to find out the amount by the end of the week or the first part of the following week.

Mr. Zaist said the Corps of Engineers built the breakwater in the 1970's and in the 1980's they modified it. In the past few years, the Corps has surveyed this area but they haven't been funded by Congress to do the dredging. Mr. Zaist said they needed to constantly rebuild the breakwater and dredge the channel.

Mr. Zaist said the Corps of Engineers reported to him earlier that day that they were still conducting their survey and had asked Congress for funding for several channels in and around Carteret County and Atlantic Harbor is one of those. In order to support this, the Corps must complete their survey and this should occur by the end of the week. He didn't know how long it would take the Corps to request the funding from Congress. He said Greg Rudolph had provided some assistance by contacting his Washington lobbyist. Mr. Zaist said if the Corps is funded, this would solve the greater issue of dredging the channel and rebuild the breakwater.

Mr. Zaist said the County is not in the dredging business but they could work on the immediate entrance channel and rebuild the breakwater. He said if the Corps is funded, they will solve the initial problem.

Commissioner Harris asked Mr. Zaist what it might take to maintain Atlantic Harbor on an annual basis, if the Corps dredges it. Mr. Zaist said he thought the biggest shoaling problem is around the sand breakwater and the County could reach that with a track excavator and drag line equipment for about \$25,000 per year; however, the County cannot maintain the main channel. He agreed that, once the channel is restored, the County should be thinking about an annual maintenance program. Commissioner Harris asked if the County could get a continuing CAMA permit for the annual repair work. Mr. Zaist said CAMA had informed him that, if they issued a permit, the County could get an extension that would cover a five (5) year period. Commissioner Harris suggested the possibility of the County taking over maintenance. Mr. Zaist said he didn't think the Corps would have a problem with this but he agreed that the sand breakwater would refill the channel every time the County has a storm.

Mr. Langdon said the County had an in-house maintenance program last year and was able to get a 1000 cubic yard permit from CAMA but this year the County had experienced an increased number of storms, which has contributed to the problem. Commissioner Harris said he hated to sound pessimistic but with the demands placed on the Corps, he felt it was unlikely for the County to obtain funding from them. Mr. Zaist felt the County had a chance of receiving funding for the initial dredging but the County needed to be prepared to provide a budgeted maintenance program for this harbor. Mr. Zaist felt the Corps had every motivation to do this but it depended on their federal funding.

Commissioner Robinson said he didn't think there had been any major dredge work done in the channel in thirty (30) years but they did some work in the turn area as a result of a storm about ten (10) years ago. He said the County has previously done some work with excavating equipment. Commissioner Robinson didn't think there had been an average of \$25,000 spent in maintaining the harbor in the past. He said the problem intensified after Hurricane Isabel when the berm eroded. Commissioner Robinson said the fisheries industry probably wasn't as big of an economic engine in the County's economy as it once was, but he was confident that this industry would come back. He said the significance of the harbors was not just a place to come and go, but to provide a safe harbor of refuge for boats during storms.

Commissioner Steepy said there was a lot of sand to pull out of the harbor and the Corps agreed that something needed to be done soon. He said he didn't think the County would be able to get to the areas of concern with a backhoe and drag line. Commissioner Steepy felt it was wishful thinking to get the Corps to agree to any type of annual maintenance.

Commissioner McElraft said she thought the best case scenario would be to get the Corps to do the work. She said the state is looking at getting their own dredge because they understand the financial dilemma of the Corps.

Mr. Zaist reiterated the importance of lobbying state and congressional delegates.

Chair Clay proposed that when the County receives the information from the Corps and any other follow-up that they are waiting on from the Shore Protection Officer, that the Board call a special session to handle any action required. She asked for consensus of the Board to call a special session, if needed.

Commissioner McElraft questioned if any type of vote was required by the Board, relative to this issue. She felt it would be more appropriate to send a letter of support. Chair Clay said the Board may have to vote on whether or not to approve the matching funds. Mr. Zaist said he wasn't sure the Board would need a special meeting for this because staff would start the CAMA permit process and would also go out for bids. Chair Clay said the Board still needed to vote on whether or not to approve the local matching funds.

Commissioner Harris asked Mr. Zaist if there was any possibility that FEMA would cover any of this. Mr. Zaist said he asked FEMA and they said they would not cover navigable waters because that is managed by another part of the Federal Government. Commissioner Harris said if the beach communities have spent their own money, such as Emerald Isle and Pine Knoll Shores, and they experience a loss from a hurricane and receive the declaration, they can file for monies to redo those beach projects. Commissioner McElraft said that is considered infrastructure, rather than navigable waters. Mr. Zaist agreed.

Mr. Langdon said the Corps did a survey of channels and major pier and docking areas, at the time they met with the County to do FEMA survey teams for individual damage. He didn't think FEMA would pay anything but because there is another governmental agency involved, the Corps could be eligible for some other special funds over and above what FEMA would give the local communities. Mr. Langdon said the Corps had been very aggressive on this because they are taking a lot of heat about how little they are able to do with their budget constraints.

Chair Clay said, based upon the information in the agenda packets, the staff requested that a grant from the NC Department of Water Resources be given and that the County would be responsible for matching funds. She said if the County receives notification from the Governor's office that the County is going to receive grant money, she suggested that the Board convene a special meeting to authorize those matching funds.

Commissioner Muns asked the Commissioners if there was anything illegal about polling the Board for this consensus. Mr. Langdon said no, but once the County was notified that the Governor's Office approved the

grant, Mr. Zaist would then start the process of going out for bids. He felt the Board could stay within the schedule of regular meetings and not lose any ground because Mr. Zaist would be prepared to go forward with this.

County Attorney Wheatly said the Board needed to know what the Corps was going to do before deciding what the County was going to proceed.

Commissioner Robinson questioned if the Board was going to hold a second regular meeting in October. He said he wanted everyone to be aware that this was on the table and may need to be addressed before the first meeting in November. He felt the best solution was to try to get the Corps of Engineers to dredge the channel but the Board needed to be mindful that the Atlantic Harbor is a working harbor and he didn't want to see people paying rent for slips in a harbor that aren't accessible or navigable. Commissioner Robinson pointed out that the Chairman has the authority to call a special meeting. Chair Clay said she would address the option of not holding a second meeting later during the meeting. Commissioner Harris assured Commissioner Robinson that if a special meeting was called, he felt the Commissioners would make every effort to attend.

Commissioner Muns asked if the County Harbors of Refuge were open to anyone in the County. Mr. Zaist confirmed that the harbors were open to anyone with a boat. He said it was his understanding, based on maritime law, that anyone is entitled to seek refuge in the harbors during storms. Commissioner Muns asked if a person had to have a slip in the harbors. Mr. Zaist said there just needed to be space available but deferred to Commissioner Robinson. Commissioner Robinson said he thought it was every man for himself in a storm. He didn't think a person could be forced out if they pitched their anchor. Commissioner Muns referred to the large boats which his family owns and he asked if his family could take their boats to the County harbors of refuge during hurricanes.

In reference the state dredging, Commissioner Robinson said the Ferry Division currently dredges and when he was a member of the NC State House of Representatives, he worked on legislation for local government entities to request and bid for the state to use their dredge. He said the problem with this was that it conflicted with private enterprise. Commissioner Robinson said he thought this was an avenue that the state should pursue, in the absence of committing federal monies. He felt our local legislative delegation should aggressively pursue this. Commissioner Robinson said Scott Thomas had been working on this and had talked to the County Manager on several occasions. Mr. Langdon confirmed that Senator Thomas was actively pursuing some state resources and staff has been working with him on this endeavor.

XI. MANAGER'S REPORT

Mr. Langdon updated the Board on the following:

Hurricane Ophelia Recap

Mr. Langdon said a few individuals lost their homes and businesses. He said the County had held after action reviews and staff had met with the municipalities, as well as emergency responders. Mr. Langdon said he thought everyone learned a lot and he expressed his appreciation to everyone who helped out. He said the County coordinated information and acted as the center for information and coordinated responses by the various emergency responders. Mr. Langdon said the real heroes were the emergency responders and citizens that helped their neighbors. He said the new Emergency Operations Plan worked well and the County was integrated with the State Plan.

Mr. Langdon said the County opened two (2) shelters and he expressed his appreciation to everyone who volunteered their time. One shelter was at the new Beaufort Elementary and another shelter was at Newport Middle School. Mr. Langdon said a Community Emergency Response Team (CERT) opened and operated the Newport Middle School shelter. Mr. Langdon pointed out that the shelter at Atlantic Elementary School was not a Red Cross shelter but the Sea Level Fire & Rescue Squad operated it, and the County was in constant communications with them to meet their needs. Mr. Langdon acknowledged an electrician by the name of Ray Flores, who helped the County find a generator and hooked it up during the hurricane.

In reference to storm debris, Mr. Langdon said the NCDOT would be picking up storm debris throughout state maintained roads in the County. He said he was also going to be asking that the state help out with some of the non-state maintained roads and hoped to get their assistance with these roads. Mr. Langdon said the County was still waiting for federal assistance and he was confident that this would be forthcoming. He said a FEMA team returned to the County earlier and they were confident the County would be declared for assistance.

Chair Clay pointed out that the Board previously agreed to waive Environmental Health septic and well inspection fees, during their last meeting. She suggested that the Board make a formal decision regarding the waiving of building inspections permitting fees for storm related damage repairs. Mr. Langdon said he took a straw poll and all the Board members supported this. He clarified that this would not be for new construction. Mr. Langdon didn't have a recommendation for the amount of time for waiving the fees. It was determined that the County previously waived building inspections permitting fees for six (6) months following Hurricane Isabel.

Motion-Commissioner Harris moved to waive the building inspections permit fees for storm related damage repairs for six (6) months. Commissioner Muns seconded. **Motion carried unanimously.**

Update on Phase II of the County Water System

Mr. Langdon reported that Hendricks Barnhill anticipated completing installation of Phase II of the County Water System within 90 days.

OCBHS Ribbon Cutting

Mr. Langdon reminded the Board that the Onslow-Carteret Behavioral Healthcare Services (OCBHS) ribbon cutting ceremony for the Family Services Center was scheduled for October 17th at 4:00 p.m. Commissioner Harris asked Mr. Langdon to contact former Commissioner, Jack Dawsey, and invite him to this ceremony. In reference to the LME Area Board, Chair Clay said it was her understanding that there were only six (6) members present at the last meeting and she encouraged the attendance of all the members to future meetings. Chair Clay said if these members continued to be absent, she would ask Commissioner Robinson to look into the bylaws regarding the possible replacement of some members.

Solid Waste Services Update

Mr. Langdon reported that the new solid waste contract was completely in place and GDS was operating all the solid waste disposal convenience sites. He said the County was receiving good feedback from citizens. Mr. Langdon complimented the Board for their foresight in purchasing the additional land next to the Otway Convenience site. He said the County was able to use this location as a storm debris and C&D disposal site after Hurricane Ophelia.

Commissioner Steepy said it was his understanding that newspapers were being separated from other recyclables in separate containers. He asked if this was the way recyclables would be handled in the future. Mr. Zaist said the recycle issue was still being refined. He said newspapers are separated but the other recyclables are mixed together. They are taken to the Greenville Vocational School where handicapped individuals separate recyclables so that they are considered "pure product lines". Mr. Zaist confirmed that there will be two recyclable bins at the sites, to include one for newspapers and one for every other type of recyclable.

XII. APPOINTMENTSJUVENILE CRIME PREVENTION COUNCIL (JCPC)

1 "Mental Health Representative" – 2 year term – expired 6/30/05

Chair Clay said the Board had previously asked Dan Jones to find a Carteret County resident to serve on the JCPC; however this had not occurred. She suggested that anyone interested and qualified should complete an application online. Mr. Langdon clarified that this individual must have credentials as a mental health representative. He was confident that Mr. Jones was going to be submitting a nomination from his pool of Carteret County mental health staff.

CARTERET COUNTY HARBOR AUTHORITY

1 seat – 2 year term expires 10/04/05

Nomination-Chair Clay nominated Sandra Gaskill for reappointment. Commissioner Robinson expressed his support for Ms. Gaskill, noting her past dedication to the Harbor Authority. **Nomination carried unanimously.**

CARTERET COUNTY PLANNING COMMISSION

1 seat – 3 year term expires 10/07/05

Nomination-Commissioner Steepy nominated John Hagle, whom he said was recommended to him by the Mayor of Beaufort and the Town Manager.

Chair Clay said she had a person she had planned to nominate but it was her understanding that Commissioner Steepy already had enough votes for Mr. Hagle.

Nomination carried with 5 votes (Commissioners Steepy, Robinson, Muns, McElraft and Harris voted in favor of Mr. Hagle).

UPCOMING APPOINTMENTSADULT HOME COMMUNITY ADVISORY COMMITTEENEWPORT LIBRARY BOARD**XIII. COMMISSIONERS' COMMENTS**COMMISSIONER HARRISHarbors of Refuge

Commissioner Harris said he had some questions about the County's Harbors of Refuge; however he didn't want anyone to interpret his questions as being against the harbors. He said this was merely information that the thought the citizens should know. Commissioner Harris said if the County was awarded the grant, he would be inclined to vote for the \$80,000 local match because he told Commissioner Robinson he would support this project during the budget process. Commissioner Harris said he felt the Board had to develop a better sense of cooperation between the different areas of the County. He said there were other areas of the County that were spending money for dredging inlets, such as Emerald Isle, who took it upon themselves to do the inlet realignment project. He noted that commercial fishing vessels go in and out of that inlet. He felt the Board

needed to be mindful that there are other areas in the County that have needs for these similar things and everyone should be treated the same, regardless of where they live in the County.

Commissioner Harris asked for the following:

- A brief history of the County Harbors of Refuge
- An inventory of the people who are renting slips in all County Harbors of Refuge, (commercial vs. pleasure/sport)
- Do we check our County Tax listings to make sure the boats in the Harbors are listed for taxes in the County?
- How many of the renters hold a commercial fishing license and how many of the boats are licensed? (He said, according to the Division of Marine Fisheries, both the fisherman and the boat must have a commercial license.)
- Are our slip renters residents of Carteret County?
- History of the fee structure on the County Harbors. (What are the rates? When were they set? How long has it been since fees were adjusted?)
- Do we have to charge both commercial and pleasure/sportfishing fishermen the same rate?
- Who regulates the fees?
- As a comparison, what are the rental rates on the north side of Atlantic Harbor where those slips are rented out by private individuals and other private marinas. (Commissioner Harris said he was told by someone who has a slip at Cedar Island that they pay \$450.00 a year for it but they had to build their own pier.)
- How much money has the County spent on these harbors over the last ten (10) years, other than what the Harbor Authority has spent? What kind of County money is going into these harbors.
- What kind of liability the County has in these harbors if a boat catches fire and burns and burns the boat next to it, or if a boat sinks, whose responsibility is it to remove it. Are there other liabilities to the County?
- Commissioner Harris said he observed what appeared to be floating structures moored in the harbors; however the County's Land Use Plan (LUP) says there will not be any floating structures in the waters of Carteret County. He said although he was not in favor of keeping this in the LUP, the Board voted to keep it there; therefore, this needed to be enforced.

Voting Location West of Morehead City

Commissioner Harris asked Mr. Langdon to start some kind of dialogue with the Board of Elections about the establishment of a satellite early one stop voting location somewhere west of Morehead City for next years elections.

COMMISSIONER MUNS

Condolences

Commissioner Muns expressed his condolences to the family of the late Tom Mileate, who recently passed away. According to Commissioner Muns, Mr. Mileate was the former Mayor of Havelock, a Magistrate, a long-term restaurant owner in Havelock.

Congratulations

Commissioner Muns congratulated Stacy Robinson, daughter of Commissioner Jonathan Robinson, for being selected as ECHS Homecoming Queen. Commissioner Robinson thanked him and said it was an honor to have his daughter selected for this distinction.

COMMISSIONER ROBINSON

Cedar Island Highway Safety Concern

Commissioner Robinson said there was a growing concern among some of the residents on Cedar Island about the safety concerns at "Field Curve", which is the sharp curve as you go onto the island. He said some constituents had requested that the County send a letter to the NCDOT requesting that a warning sign be placed there to identify this oncoming curve to drivers.

The Board voiced no objection to sending a letter to NCDOT regarding this matter.

Harbor Authority Members

Commissioner Robinson acknowledged David Smith, Janice Smith, and Sandra Gaskill, who were in the audience. He recognized their hard work on the Carteret County Harbor Authority. Commissioner Robinson said the boat access area near the Harkers Island Bridge was a result of efforts by this group.

COMMISSIONER STEEPY

Congratulations

Commissioner Steepy extended his congratulations to Commissioner Robinson on behalf of his daughter being crowned Homecoming Queen at ECHS.

Staff Appreciation

Commissioner Steepy expressed his appreciation to Mr. Langdon, Allen Smith and all the staff involved in the efforts before, during, and after Hurricane Ophelia.

North Carolina's Eastern Region

Commissioner Steepy said, with the reconfiguration of the NC Eastern Region Commission, there are six (6) "At-Large" seats available (2 each from the Senate, House and Governor's Office). He asked that the Board allow Chair Clay to write a letter in support of Dick Futrell, whose name has been put forth. Commissioner Steepy felt a letter on behalf of the Board would strengthen Mr. Futrell's potential to be appointed. He felt the appointment of Mr. Futrell would be an asset to Carteret County. Chair Clay said it would be her pleasure to support Mr. Futrell because he would particularly represent the Port and the Hwy. 70 Corridor. There was no objection from the Board to this request and the Deputy Clerk was asked to draft a letter to the Governor's Office, with copies going to Representative Jean Preston and Senator Scott Thomas.

CHAIR CLAYCongratulations

Chair Clay congratulated Commissioner Robinson for his daughter being selected Homecoming Queen at ECHS.

Chair Clay also expressed her appreciation to Jack Veit, the Assistant to the County Manager, for his hard work and efforts during Hurricane Ophelia. She said Mr. Veit worked extremely hard behind the scenes.

October Meeting Schedule

Chair Clay recommended canceling the second meeting in October, based the lack of agenda items. She noted that if anything of a time sensitive nature arose, a special meeting could be called. It was the consensus of the Board to cancel the second meeting.

Hwy. 70 Traffic Safety Issue

Chair Clay said she had been contacted by a number of people about a safety issue at the intersection at Hwy. 70 and Howard Blvd. in Newport. She said there have been a number of traffic and pedestrian fatalities at this intersection. Chair Clay said Commissioner Steepy was at the RPO meeting with her on Tuesday when she had a discussion with the Neil Lassiter, the NCDOT Division Engineer, about doing something about that intersection. She said she was not overly happy with his response so she asked Ms. Deese to draft a letter, which Chair Clay read. She said all the Commissioners would receive a copy of the letter, along with the Town of Newport and the Division Engineer. The letter requested that NCDOT consider erecting a pedestrian signal to cross Hwy. 70, as well as a left turn signal for vehicular traffic.

Chair Clay said there is a lot of pedestrian traffic coming out of Newport, as well as traffic from the rest home on the corner of this intersection. She was aware of at least two pedestrian fatalities. Chair Clay said, according to Neil Lassiter, the NCDOT felt they could not change the timing and insert a turn signal on this traffic light because it would affect their corridor timing by two minutes. She said she had asked Mr. Lassiter which was more important, changing the signal by 2 minutes or saving the life of a pedestrian or a person traveling by motor vehicle.

Chair Clay said she wanted the Board to be aware that she was sending a letter to Cam McRae to ask that DOT study this issue further. She asked Commissioner Steepy, as Chairman of the Transportation Committee, if he would review this with the Transportation Committee at their next meeting. Chair Clay said she had not been able to get the information on the number of accidents and fatalities at this intersection. Commissioner Muns pointed out that a number of people crossing Hwy. 70 at this intersection are residents of a nearby Assisted Living Home.

The Board voiced no objection to sending a letter to NCDOT regarding this matter.

XIV. ADJOURNMENT

Motion-Commissioner Muns moved to adjourn. Commissioner Harris seconded. **Motion carried unanimously.**

Lynda Clay, Chair

Jeanette Deese, Deputy Clerk
